CERTIFIED MEAT PRODUCTS

ALL THINGS PROTEIN®

January 12, 2026

All products produced by Certified Meat Products are produced under a United States Department of Agriculture Grant of Inspection and are inspected and passed by the United States Department of Agriculture under establishment number 31932 or 31932A. All products produced by Certified Meat Products are produced at 4586 E. Commerce Ave., Fresno, CA 93725 or 2704 S. Maple Ave., Fresno, CA 93725.

All products are produced under our HACCP plan(s) which meets or exceeds all current USDA/FSIS regulations. All raw materials are purchased under a comprehensive raw material purchase specification, requiring all suppliers to meet or exceed the same USDA/FSIS regulations. Specifically, our purchase specification requires that all beef products must be from establishments that have provided assurance in the form of a written letter of guarantee that the BSE SRMs have been removed and the product has been handled in accordance with USDA regulations, including all recent additions pertaining to exclusion of "Specified Risk Materials" from the human food supply. All products meet the requirements of the federal Meat Inspection Act and are fit for human consumption.

All Ground Beef produced at our facility is produced from raw materials that were tested and found negative for E.coli O157:H7 using a robust sampling method.

Sincerely,

Steven Maxey
